

<b>VARIANCE / FIELD CHANGE NOTICE</b>			V/F No. R3-06		
PROJECT NO: 2505-WP-0022			Page 1 of 1		
DOCUMENT NO: 2505-WP-0022			Date: 10-22-03		
DOCUMENT TITLE: Integrated Environmental Monitoring Plan, Rev. 3					
<b>VARIANCE / FIELD CHANGE NOTICE (Include justification)</b>					
<b>Requirement:</b>					
<p>The IEMP provides an option to sample a monitoring well one last time prior to being plugged and abandoned (Variance R3-02 dated 4/22/03).</p>					
<b>Variance:</b>					
<p>In the second half of 2003, and again immediately prior to abandonment, Channels 1 through 6 in Wells 83120 and 83123 will be sampled for total uranium.</p> <p>Future CMT wells being plugged and abandoned may have each available channel sampled for total uranium (or any of the other groundwater FRL constituents) prior to being plugged and abandoned as deemed appropriate.</p>					
<b>Justification:</b>					
<p>Wells 83120 and 83123 are being plugged and abandoned. This change is needed to provide pre-abandonment sampling directions for Wells 83120 and 83123 as well as future CMT wells. CMT wells differ from conventional monitoring wells in that they have more than one sampling horizon available.</p>
